

# The Ultimate Curriculum for Engaged and Excited Learners

Your Complete Solution for Early Childhood Education

# INTRODUCTION:

LEDAVERSE, a Canadian-based company specializing in educational services, was founded with a clear mission: to support educational establishments in achieving superior performance. By providing innovative tools and comprehensive curriculum solutions, we empower educators to focus on their primary goal — teaching effectively.

Our founder brings several years of experience across various educational levels and in establishing new educational institutions. This extensive background informs our commitment to early development and learning, as we firmly believe that a strong foundation leads to a promising future.

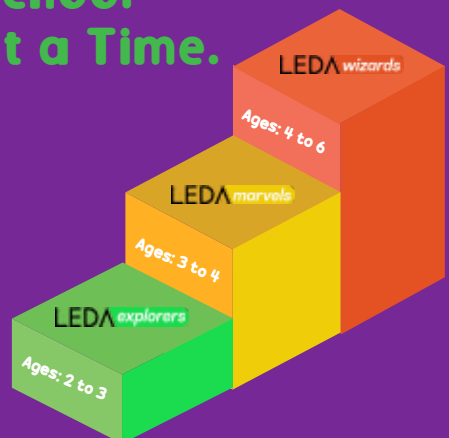

At LEDAVERSE, we have developed a groundbreaking solution for preschools and kindergartens. Our unique curriculum integrates leading teaching approaches and techniques from around the world, offering a holistic educational experience. More than just a curriculum, our solution includes a complete courseware kit, providing everything a child needs for an entire academic year.

Our yearly kit is designed to seamlessly integrate into any existing teaching system or function as a standalone solution, offering unparalleled flexibility. Each kit ensures that every student has access to a rich, engaging, and well-rounded educational experience, setting them on the path to lifelong success.

Join us at LEDAVERSE, where we are committed to making early childhood education an adventure in learning, exploration, and discovery.

## Revolutionizing Preschool Education. One Kit at a Time.

At LEDAVERSE, we believe in creating a nurturing and engaging learning environment for young children. Our one-of-a-kind curriculum is designed for early years and can be used in any learning environment, including preschools and kindergartens. Based on the concept of LEDA — Learning through Exploration, Discovery, and Adventure — our curriculum transforms learning into an exciting journey.

## HIGH-QUALITY FULL COLORED BOOKS

“Ignite a Lifelong Love for Learning”

Our 8 meticulously designed books cover all subjects for 35 weeks of learning. Each book is crafted to ensure a day-to-day learning schedule that keeps children engaged and teachers stress-free.

The subjects covered by the LEDAVERSE curriculum are:

- English
- Arabic
- Numbers
- Science
- World Around Us
- Quran
- Islamic Studies
- Phonics
- Arts
- Craft
- Fitness
- Stories
- Rhymes
- Etiquettes
- Social Science
- LEDA Time

## FLASHCARDS

“Instant Engagement, Lasting Knowledge”

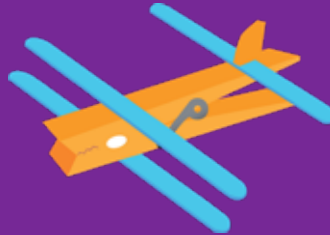

Two sets of high-quality flashcards for English and Arabic Letters, Numbers, Shapes, and Colors. These flashcards make learning interactive and fun, reinforcing key concepts effortlessly.

## CRAFT KITS

“Unleash Creativity, One Week at a Time”

Our 35 weekly craft kits include all the materials needed for each activity. These kits save you time and money on planning and sourcing supplies, allowing children to easily express their creativity. Each kit is designed to provide a fun and engaging crafting experience, making it simple for both educators and parents to encourage artistic exploration.

“Healthy Bodies, Active Minds”

## FITNESS PROGRAM

A well-researched fitness program tailored for young children. With 35 weeks of exercises, detailed books, video lessons, and flashcards, children stay active and healthy, without needing a separate fitness teacher.

## “Manners Matter: Cultivating Politeness and Respect from an Early Age” Etiquette Program

At LEDAVERSE, we know how important it is to teach young children good manners and cultural etiquette. Our Etiquette Program, created by experts, is a key part of our curriculum. It covers basic manners for all cultures, with a focus on Arab customs.

Our artists make each etiquette lesson fun and engaging for children. To help kids understand and practice these manners, we include simple exercises.

Our goal is to develop respectful and courteous individuals, ready for social interactions in their community and beyond.

---

## “Fueling Young Minds with the Power of Stories”

### Power of Stories

At LEDAVERSE, we value storytelling for children's growth. To support educators, we've partnered with a UK publisher to provide ten age-appropriate stories for our curriculum. These stories are integrated into our schedule and available through the LEDAVERSE Kit for teachers to read aloud or act out with children. This interactive approach boosts critical thinking, creativity, and social skills, preparing kids for future success.

## SCIENCE LAB KITS

“Hands-On Science,  
Limitless Curiosity”

18 science lab kits come complete with all necessary materials. Detailed instructions in the books help teachers conduct experiments that spark curiosity and understanding in young minds.

## LEDAVERSE App

“Streamlined Learning, Connected Community”

Our smartphone app, available on Apple and Android, offers amazing features beyond standard communication and attendance tracking. Manage and control all aspects of the curriculum with ease, ensuring a seamless educational experience for both teachers and parents.

Some of the features include:

- Curriculum Scheduling
- Attendance
- Daily Objectives Notifications
- Daily Homework Notifications
- Report Cards
- Private Photo Album
- Meeting Requests
- Appointments
